To whom it may concern:

As an Associate Professor from the Department of Mathematics and Computer Science, I have had the pleasure of knowing Tanner Allinson for more than three years. He has been a tremendous student of mine. I would like to take this opportunity to recommend Tanner.

I feel confident that Tanner will continue to succeed in his further job. He was a very dedicated collaborator in software development projects from academic assignments and thus far his achievements have been exemplary. During each project, he has proven to be a take-charge person who is able to successfully to complete tasks in time. Tanner has been always a diligent person. He is eager to learn, accomplishing his individual and team assignments in a complete manner. He has demonstrated abilities for searching complex information, discern it, and explain its meaning. Tanner Allinson has impressive software development and IT experience. He is knowledgeable of Java, C++, HTML 5, Java Script, SQL, Assembly and C programming, and he is also capable of using UNIX, among other computing skills. He also has valuable technical abilities related to web development such as wireframes, CSS, and using various information systems.

Tanner is an agreeable person. He is always willing to take part in team discussions.

It is for these reasons that I offer high recommendations for Tanner Allinson without reservation. His drive, scholar, technical and interpersonal abilities will truly be an important asset to an IT or related organization. If you have any questions regarding this recommendation, please do not hesitate to contact me.

Sincerely,

Miguel A. Garcia-Ruiz, BEng, MSc, PhD
Associate Professor
Department of Mathematics and Computer Science
Algoma University
